

Jacqueline du Pré Music Building foyer extension

Project	New glazed foyer
Location	St. Hilda's College, University of Oxford
Employer	St. Hilda's College, Oxford
Contract Administrator	van Heyningen and Haward Architects
Project Value	£230,000

Basil Wyatt & Sons Ltd built the new glazed entrance foyer designed by van Heyningen and Haward, the architects of the main Jacqueline du Pré Music Building.

The foyer features glazed elevations and roof supported by very narrow steel structural sections. The resulting space is light and open.

Throughout the construction period the music building remained open, necessitating special measures to allow for public access, for students to use the music rooms on a daily basis and for maintaining fire escape routes.
